PRESENTATION

The main objective of the **Master's Degree in Dental Science** is to train specialists in dentistry and, particularly, the branches of implantology, neuromuscular dentistry and orthodontics. It has an international outlook, so it sets out to meet the demands of students from a variety of geographical locations. Thus, a blended-learning programme has been designed in which theory is taught online and internships are offered in prestigious centres in the students' home countries.

The demand for high-quality and specialised training offered by world-renowned universities such as the Universitat Jaume I (which is one of the top 500 in world rankings) is increasing among dentistry professionals. Additionally, they demand training that enables them to undertake doctoral studies.

The programme is taught by internationally-renowned specialised lecturers.

It has a multidisciplinary approach since its lecturers comprise professionals from a wide variety of fields, such as engineering, biomedicine and, of course, clinical specialists.

Collaborating entities:

MYOTRONICS
Helping Build the Perfect Bite

OrtoSpecialized
 GC Orthodontics exclusivist
 Global experts in Orthodontics

Engineering by  TOMV

WHO IT IS AIMED AT

- Graduates in dentistry and equivalent degrees.
- Preferably, practitioners wishing to receive specialised and quality training.

Admission to the course will be decided on by the course directors based on the **evaluation of the candidates' CVs**, taking mainly into account their professional careers (qualifications, years of experience, research activity).

GENERAL INFORMATION

Duration: 120 ECTS credits – two academic years

Delivery mode: blended. Theory will be taught online, while internship will require the student's attendance (on-site).

Dates: from october 2025 to July 2027

Contact phone number: +34 964 38 72 09/22

Qualification / Diploma obtained: UJI-specific master's degree

OBJECTIVES

The objective of the master's degree course is to offer dentists, preferably with clinical experience, specific training in dental science.

Another objective of the course will be to ensure its graduates acquire a set of generic as well as specific competences within the field of dentistry. One aspect that can be highlighted among the specific competences is that of offering students basic training that enables them to improve their ability to carry out diagnoses and to plan the respective treatments.

METHODOLOGY

Credits are distributed in two years, where it can be seen that the course is made up of 13 compulsory subjects (39.5 ECTS credits), specialization subjects (24.5 ECTS credits), seminar and articles (depending on the specialization 12 ECTS), 3 internships (30 ECTS credits) and 1 master's thesis (14 ECTS credits).

PROGRAMME

Compulsory subjects (39.5 ECTS credits)

Anatomy of Orofacial Structures: a comprehensive Approach (3 ECTS credits)

Embryonic Development of the Face and the Oral Cavity (2 ECTS credits)

Oral Histology (5.5 ECTS credits)

Applied Physiology & Nutrition (5 ECTS credits)

Applied Oral Pathology (3 ECTS credits)

Osseointegration (4.5 ECTS credits)

Microbiology (1.5 ECTS credits)

Biomaterials (5.5 ECTS credits)

Biochemistry (2 ECTS credits)

Biostatistics (1.5 ECTS credits)

Research Methodologies (3 ECTS credits)

Genetic Growth and Development (2 ECTS credits)

Diagnosis and Therapy in Patients with Sleep Apnoea (1 ECTS credit)

Oral Implantology

Specialty subjects (24.5 ECTS credits)

Biomechanics – Implantology (5 ECTS credits)

New Therapies for Osseointegration – Implantology (1.5 ECTS credits)

Diagnosis and Treatment Planning (2 ECTS credits)

Basic Science and Fundamentals of Implantology (1.5 ECTS credits)

Sterilisation and Asepsis (2 ECTS credits)

Implantology Procedures (1.5 ECTS credits)

Clinical Aspects of Implantology (2 ECTS credits)

Legal Aspects in Medicine and Consent (2 ECTS credits)

Bio-Regeneration using Different Techniques and Materials (2 ECTS credits)

Guided Tissue Regeneration (5 ECTS credits)

Neuromuscular Orthodontics and Craniomandibular Orthopedics

Specialty subjects (24.5 ECTS credits)

Biomechanics – Neuromuscular (5 ECTS credits)

New Therapies for Osseointegration – Orthodontics (1.5 ECTS credits)

Neuromuscular I (7 ECTS credits)

Neuromuscular II (4 ECTS credits)

Multidisciplinary Approach in Neuromuscular Orthodontics (5 ECTS credits)

Science of Craniofacial Pain/Orofacial Pain/TMD (2 ECTS credits)

Orthodontics**Specialty subjects (24.5 ECTS credits)**

Biomechanics – Orthodontics (5 ECTS credits)

New Therapies for Osseointegration – Orthodontics (1.5 ECTS credits)

Orthodontics and Dentofacial Orthopaedics I (7 ECTS credits)

Orthodontics and Dentofacial Orthopaedics II (4 ECTS credits)

Orthodontics and Dentofacial Orthopaedics III (1.25 ECTS credits)

Orthodontics and Dentofacial Orthopaedics IV (5.75 ECTS credits)

Common modules for all specialties

Internship (30 ECTS credits)

Articles and seminars (12 ECTS credits)

Master's thesis (MT) (14 ECTS credits)

Individual tutorials

If you want make an appointment for an **individual tutorial** with the director of the master's degree, you can do so by sending an e-mail to formacion@fue.uji.es.

DIRECTORS**Dr. Julio José Suay Antón**

Master's Lecturer in Osseointegration.

Industrial Engineer, PhD. In Engineering, Universidad Politécnica de Valencia.

Full Professor of the Universitat Jaume I. Department of Industrial Systems Engineering and Design.

Coordinator and director of PIMA, Polymers and Advanced Materials research group, taking part in the researches of the Biomaterials Center.

His research is mainly focused in: the development of functional coatings for biomedical applications (dental implants), research in implants osteointegration by proteomics and the development of new adjustments for dental implants.

Head of GMI-Ilerimplant Dental Science chair since 2017.

Dra. Cristina Martínez Ramos

Master's Lecturer in Osseointegration and Microbiology.

Adjunct Lecturer in the Department of Physiology Of the Universitat Jaume I. Graduated in Biology. PhD in Medicine from the University of Valencia.

BsC. Biological Science, PhD. Otoneuroophthalmology Surgery, PhD. Medicine, Universidad de Valencia.

Senior Research Technician and Associate Professor in department of Center for Biomaterials and Tissue Engineering at Polytechnic University of Valencia.

Worked as an associate professor at the University San Pablo. Taught in the Master of Biomedical Engineering and Biotechnology Biomedical at the Polytechnic University of Valencia.

Participating in a company based on biotechnology as a partner "Nerve Biomed, S.L.", founded in the year 2016.

NEUROMUSCULAR SPECIALTY DIRECTOR**Practices director****Dr. Fabio Savastano**

Master's Lecturer in Biomechanics (Neuromuscular), New therapies for Osseointegration (Orthodontics) and Neuromuscular I and II.

MsC. Orthodontics, University of Padua; Medicine and Surgery, University of Naples.

Private Practicing Physician.

President of the International College of Neuromuscular Orthodontics and Gnathology (ICNOG).

International Member of the American Association of Orthodontics (AAO).

Member of numerous associations and has lectured in Brazil, Canada, U.A.E., Spain, Bahrain, Czech Rep., India and Italy on "Neuromuscular Orthodontics".

Exclusively practices in Orthodontics and gnathology in Albenga, Italy.

Author of 7 publications on Neuromuscular Orthodontics.

IMPLANTOLOGY SPECIALTY DIRECTORS

Practices director

Dr. Kenneth Lee - Asia / EEUU Implantology Director

Dr Kenneth Lee received his Bachelor of Dental Surgery from the University of Sydney.

He is a practicing dentist, principal of Today's Dental for over 30 years and runs a multi-location group practice in Sydney, Australia. His personal practice is limited to TMD, sleep Medicine and Implant Dentistry. He regularly lectures and teaches nationally and internationally. He is foundation faculty for the International Academy of Advanced Dentistry in Sydney, Australia, which runs over 30 weekends per year around Australia.

Practices directors

Dr. Azizi - Europe Implantology Director

Best PhD Dissertation of 2018 Award. School of Dental Medicine, University of Zagreb, Zagreb

Prof. Ass. Dr. AAB College. Teaching the following courses: - Dental Implantology -Oral Surgery -First Aid -Dental Emergencies

ORTHODONTIC SPECIALTY DIRECTORS

Practices director

Dr. Kenneth Lee

Master's Lecturer in Biomechanics (Orthodontics) and Orthodontics and dentofacial orthopedics I, II, III and IV.

Dr Kenneth Lee received his Bachelor of Dental Surgery from the University of Sydney.

He is a practicing dentist, principal of Today's Dental for over 30 years and runs a multi-location group practice in Sydney, Australia. His personal practice is limited to TMD, sleep Medicine and Implant Dentistry. He regularly lectures and teaches nationally and internationally. He is foundation faculty for the International Academy of Advanced Dentistry in Sydney, Australia, which runs over 30 weekends per year around Australia.

LECTURERS

Dr. Francisco Olucha Bordonau

Lecturer Anatomy of the orofacial structures: a comprehensive approach

Doctor in Biological Sciences, University of Valencia (PhD).

Professor of Morphological Sciences and Professor of Anatomy and Human Embryology at the Jaume I University.

Training venues at New York University, Florida Atlantic University and Florey Institute of Neuroscience and Mental Health at the University of Melbourne.

Specialist in Neuroanatomy, developed the research work on peptidergic control of emotional and cognitive behavior.

Member of the Council of the Mediterranean Neuroscience Society and promoter of the Euromediterranean Master in Neuroscience and Biotechnology.

Authored more than 16 Scientific publications and 2 book chapters.

Dr. Francisco Ros Bernal

Lecturer Embryonic development of the face and oral cavity

BsC. Biochemistry, PhD. Neurosciences from University of Murcia.

Assistant Professor at Universitat Jaume I in Department of Medicine.

Member of the Neurobiotechnology research group of the Universitat Jaume I of Castellón, centered in the role of peptides of the insulin family on the behaviour and development of brain in Alzheimer's disease.

Author of more than 17 research articles, 40 communications and 5 book chapters in his area of study.

Dr. Carmen Cardá

Lecturer Oral Histology

PhD, Full Professor.

BsC. Medicine, M.D. Medicine, BsC. Odontology, University of Valencia; PhD. In Odontology, University of Granada.

Full time Professor at Pathology Department, Universitat de Valencia.

Winner of PhD. Prize from the University of Valencia and Spanish National Prize from her Doctoral Thesis, based on a human tumor xenograft model in nude mice.

Participant in 20 research projects publicly funded.

Authored more than 100 publications in international scientific journals and 15 book chapters.

Dr. Javier Martín de Llano

Lecturer Oral Histology

BsC in Biological Science, Complutense University, Madrid.

Post-doctoral associate at the Rockefeller University (New York, USA).

Former Director of the Course in Advanced Techniques in Molecular Diagnostic, held in IIC (Valencia, Spain), for several years.

Former associated professor of Cell Biology and Genetics at the Cardenal Herrera-CEU University.

Coordinator of several projects related to the study of the interaction of cells with titanium implants and its use in tissue engineering procedures.

Dr. Juan Vicente Sánchez Andrés

Lecturer Applied physiology & nutrition

PhD, Full Professor.

BsC. Medicine and Surgery, University of Valencia.

PhD in Medicine, University of Alicante; MBA UNED.

Full time Professor of Physiology and Director of the Department of Medicine at Universitat Jaume I.

Fellow of the FECYT Scientific Council.

Co-founder of the Institute of Biomedical Technologies of Tenerife and the Mediterranean Foundation of Neuroscience.

President of the Ethic Committee of the Institute of Medical Sciences of Alicante.

Director of the entrepreneurship programs of the EOI (Escuela de Organización Industrial-Business School associated to the Spanish Ministry of Industry).

Dr. Maria Muriach Saurí

Lecturer Applied physiology & nutrition

BsC. In Food Sciences, University of Valencia; PhD. Universidad Cardenal Herrera-CEU.

Assistant Professor at Department of Medicine, Universitat Jaume I.

Researcher focused on the study of oxidative stress as a pathophysiological mechanism in different diseases, especially those affecting the Central Nervous System.

Former full-time professor at the UCH-CEU (2006-2012).

Current PI of the research group "Neural Systems" in the Universitat Jaume I of Castellón.

Has 29 published articles in international journals, more than 20 of such journals being indexed in the ISI Web of Knowledge.

Dr. Victoria Valls Bellés

Lecturer Applied physiology & nutrition

BsC. Biology (Biochemistry), University of Valencia.

Associate Professor at Universitat Jaume I in Department of Medicine.

Assistant Professor of the 1st and 2nd cycle LRU (1996-1999); Interim Associated Professor of the Department of Biotechnology and Food Science – Faculty of Food Science and Technology – University of Valladolid and Burgos.

Evaluator of projects and products – Spanish Company of Penicillin and Antibiotics (CEPA) – Madrid (1997-1999).

Associated Professor (2011-2014) Polytechnic University of Valencia Higher Technical School of Agronomic and Natural Environment Engineering. FoodTechnology (Nutrition and Dietetics).

Dr. Enrique García Sorribes

Lecturer Applied Oral Pathology

BsC. Medicine and Surgery, Universidad de Valencia; M.D. in Stomatology University of Montpellier, France; MsC. In Implantology, University of Vitoria; PhD. Universitat Jaume I.

Founder & Dentist at García Sorribes Dental Clinic.

Named academic of the Royal Medicine Academy of Valencia (2015).

Vice President of continued formation courses of the General Council of Odontology and Stomatology of Spain.

Doctoral thesis: "Radiographic and clinic evaluation of 350 short implants in the atrophic superior and inferior maxillaries. 3 years retrospective study".

Dr. Isabel Goñi Echave

Lecturer Osseointegration

Bsc., PhD in Chemistry, Basque Country University (UPV/EHU).

Full Professor of the Faculty of Chemistry and Polimers of the Basque Country University (San Sebastián).

Multiple research lines, in specific in the biomaterial drug delivery and development of new acrylic bone cements, with various directed PhD. thesis colaborations with important research groups.

Colaboration with the head of the Dental Science Master, Dr. Julio Suay, in the development of osteoinductive coatings, originating an European patent PCT W02013110843 licensed to Ilerimplant company, being currently on the clinical phase of an osteoinductive prototype.

Has participated in more than 40 projects R&D, more than 65 indexed publications of international journals and supervisor of 11 PhD. thesis.

Dr. Amparo Baiget Orts

Lecturer Biochemistry

Chemist and a PhD in Biomaterials, Polytechnic University of Valencia (UPV).

Research experience since 2003 in organic chemistry synthesis (Belgium) and regenerative medicine at the Center for Biomaterials and Tissue Engineering (CBIT) at the Polytechnic University of Valencia.

Experience in different subjects as polymers, cell biology, molecular biology, biochemistry, biotechnology and biomaterial.

Manager of the area of Biomaterials at HistoCell S.L.

Experienced researcher in management, execution and monitoring of competitive projects.

Dr. Conrado Martínez

Lecturer Genetic Growth and Development

BsC. Medicine, Universidad de Navarra; MsC.. Biological Sciences, University of Oregon; PhD. Human Genetics, University of Oxford, UK.

Lecturer in Department of Medicine at Universitat Jaume I.

M.D. in Human Genetics with know-how in the world of research, teaching, and professional clinical practice.

Periods as an assistant professor at the University of Oregon (USA) and as Tutor in Human Genetics at the University of Oxford (UK).

Worked for two years in a molecular biology laboratory in a public hospital performing genetic diagnostics tasks.

Worked for 7 years as a geneticist, consultant and trainer specialised in medical and attended a medical consultation of clinical genetics in a prestigious private hospital (Hospital Quiron Valencia) for 10 years.

Research is in the field of Human Pigmentation and Melanoma Genetics, with 17 published international scientific indexed articles.

Dr. Jorge García Cañadas

Lecturer Biomaterials

PhD in Applied Physical Chemistry, Universitat Jaume I (Castellón).

Ramón y Cajal fellow at the Universitat Jaume I in Castellon (Spain) in the Polymers and Advanced Materials Research Group, leading the research line in thermoelectricity, mainly focusing on the development of characterization methods and the pioneering study of hybrid solid-liquid thermoelectric systems.

R&D Manager by the spin-off company Xop Física S.L.

Torres Quevedo fellowship.

Participation in one national and three European projects.

Co-inventor of two patents, author of more than 40 articles in international journals, 2 book chapters, and has co-supervised 3 PhD theses

Dr. José Gamez Pérez

Lecturer Biomaterials

MsC. Chemistry, University of Valencia; Engineer Chemistry, University Louis Pasteur; MsC. Chemistry of molecular and macromolecular materials University Louis Pasteur; PhD. Technical University of Catalonia.

Assistant Professor in department of Industrial Systems Engineering and Design at Universitat Jaume I.

Coordinator of the EURUJI double degree program and "High Academic Performance" group of the ESTCE (2011-2015).

Co-Coordinator of the PIMA research group of the University Jaume I of Castellón.

Dr. Raúl Izquierdo

Lecturer Biomaterials

PhD. In, Universitat Jaume I, Vice-director of the Technology and Experimental Sciences School, Universitat Jaume I.

Associate Professor in department of Industrial Systems Engineering and Design at Universitat Jaume I.

Exchange student and strategic coordinator for the same school.

Multiple participations in book chapters and scientific articles.

Co-coordinator of the PIMA research group at the Universitat Jaume I, which has resulted in collaboration in multiple projects, in particular with the Dental Science Master director, Dr. Julio Suay.

Dr. Luis Cabedo Mas**Lecturer Biomaterials**

BSc. Chemical Engineering; PhD., Universitat Jaume I.

Associate Professor in department of Industrial Systems Engineering and Design at Universitat Jaume I.

Has worked at the Novel Materials and Nanotechnology Lab of the Institute of Agrochemistry and Food Technology - IATA, a centre of the Spanish National Research Council – CSIC.

Co-inventor of a patent in the above-related field and promoter of a spin-off (Nano biomatters).

Member of the "Royal Spanish Society of Physics and Chemistry (Polymers Group)".

Received the "Young Researchers Award" in the field of Engineering in 2010.

Dr. Iliana Recalde Ruíz**Lecturer Biomaterials**

Bsc. in Chemical Sciences and Master in Chemical-Physics of Polymers from Havana University, Cuba. Ph.D. Valencia University; Spain (2002).

Project Manager in national and European projects for both the public and private sectors, related with the use, development and characterization of polymeric materials for the pharmaceutical, electronics, aerospace and the packaging industry.

Professor in different universities (Course on Pedagogical Ability and Positive Evaluation: Assistant Professor).

Co-author of scientific publications in international journals and presentations in international congresses.

Dr. Francisco Romero Gavilán**Lecturer New Therapies for Osseointegration (Implantology) & Biostatistics**

Chemical Engineer, MsC. of Science Technology and Applications of Ceramic Materials, Universitat Jaume I. PhD.

Chemical Engineer in department of Industrial Systems Engineering and Design at Universitat Jaume I.

Experience in the development of biomaterials and respective characterization techniques.

Research activity focused on the surface modification of dental implant through osteoinductive coatings and the development of new methodologies for biomaterial designing, based on the study of implant-tissue interactions using proteomics.

Dr. Aurelio Gómez Cadenas**Lecturer Research methodologies**

MsC., PhD.; Universidad de Valencia.

Full time Professor in Agricultural and Natural Sciences Department at Universitat Jaume I.

Director of Departament "Ciencias Agrarias y del Medio Natural de la Universitat Jaume I" (2006-2010).

"Coordinator in UniversitatJaume I of the intercenter master in "Biología Molecular, Celular y Genética" (2007-2012).

President of the Spanish Society of Plant Physiologists (2013-2017).

Associate editor of the journal "Spanish Journal of Agricultural Research".

Dr. Víctor Roda Casanova**Lecturer Biomechanics (Implantology, Neuromuscular and Orthodontics)**

BSc., MsC., PhD., Universitat Jaume I.

Member of the Gear Transmissions Research Group (GITE) of the Jaume I University.

Fellow member of the Spanish Association of Mechanical Engineers.

Visiting researcher at the Mechanics of Materials and Structures research group of the University of Glasgow.

Dr. José Vicente García

Lecturer Biomechanics (Implantology, Neuromuscular and Orthodontics)

Bsc., Msc., PhD Universitat de Valencia.

Assistant Professor in Department of Mechanical Engineering at Universitat Jaume I.

Member of the Gear Transmissions Research Group (GITE) of the Jaume I University.

Fellow member of the Spanish Association of Mechanical Engineers.

Visiting researcher at the Mechanics of Materials and Structures research group at the University of Glasgow.

Dr. Ana María Piquer Vicent

Lecturer Biomechanics (Implantology, Neuromuscular and Orthodontics)

Msc. Universidad Politécnica de Valencia; PhD. In Industrial Engineering, Universitat Jaume I.

Associated Professor in Department of Mechanical Engineering at Universitat Jaume I.

Head of the Bachelor's Degree in engineering and Industrial Technology since April 2014.

Former coordinator in the Industrial Engineering during the Bologna process since September of 2007 to July of 2011.

Former secretary of the Department of Mechanical Engineering and Construction from September of 2011 to April of 2012.

Research centered in Computer Graphics and she participates in research projects about and application of human perception in 3D Reconstruction.

Dr. Mark McEnroe

Lecturer Diagnosis and Therapy in Patients with Sleep Apnoea

BsC., University of Dublin, Ireland.

Over 20 years' experience in the field of sleep diagnostics and therapy for the NHS and HSE in the UK and Ireland.

Consultant expert for many medical companies involved in peer to peer reviews in relation to clinical pathways and using latest technology in the clinical setting.

Lecture at national and international meetings in the field of sleep.

Working with many dentists in the UK and Ireland to enable them to undertake clinical assessments of sleep apnoea patients and correct clinical assessment for MADs.

Dr. Piero Silvestrini

Lecturer Neuromuscular II

Doctor in Medicine MD, Specialist in Odontostomatology DS.

Phylosofical Doctor, PhD in Odontostomathology.

Teacher in Gnathology (Gnathology Association).

Teacher of Dental Occlusion and Posture (Italian Association for the Study and Development of Mezieres Methods).

Lectured at more than 200 Italian and international conferences, authored more than 100 scientific Works and co-authored several books.

Dr. Prabu Raman

Lecturer Neuromuscular II

DDS – University of Missouri – Kansas City, Missouri USA.

President, Fellow, Master, International College of CranioMandibular Orthopedics North America.

Master, Former Clinical Instructor, Featured speaker – Las Vegas Institute for Advanced Dental Studies.

American Academy of Dental Sleep Medicine – Qualified Dentist.

Commissioner, National Commission on Recognition of Dental Specialties and Certifying Boards.

President, Missouri Dental Association 2016- 2017.

Council on Dental Education & Licensure, American Dental Association 2013 – 2017.

Dr. Curtis Westersund

Lecturer Multidisciplinary Approach in Neuromuscular Orthodontics

Graduated a DDS from the University of Alberta in 1979 and operates a general dental practice in Calgary, Canada focused on precision jaw orthopedic therapy. He holds a mastership within the International College of Cranio-Mandibular Orthopedics (ICCMO). He is the current Vice President of ICCMO. He has a Disclusion Time Reduction (DTR) certification and trains dentists for Tek-Scan, a digital occlusion sensor provider. His publications include: Cranio, The Journal of Craniomandibular & Sleep Practice, Handbook of Research on Computerized Occlusal Analysis in Dental Medicine and Abstracts published in the American Academy of Dental Sleep Medicine.

Dr. Thierry Gouzland

Lecturer Multidisciplinary Approach in Neuromuscular Orthodontics

Physiotherapist. Myo-Functional Therapist.

Private practice New Bel-Air Clinic (since 2017) and the Centre Tivoli-Mandron (since 2018). Liberal exercise Polyclinique Bordeaux Tondou from 1998 to 2020.

Teaching: Faculty of Medicine Bordeaux (since 2014) and Faculté Odontologie Bordeaux (since 2016)

President AROM : French Association of Oro-Maxillo-facial Rehabilitation since 2018.

Dr. Roberto Rinaldi

Lecturer Multidisciplinary Approach in Neuromuscular Orthodontics

Degree in Dentistry from the Univeristy of Padua, Italy (2007).

Specialization in Orthodontics, University of Ferrara, Italy (2011).

Master in orthodontics therapy Sato Philosophy.

Curriculum base of Vienna School of Interdisciplinary dentistry.

Member of SIDO (Società italiana di Ortodonzia).

Dr. Ira L Saphira

Lecturer Science of Craniofacial Pain/Orofacial Pain/TMD

Bachelor of Science, Microbiology Ohio State University and Doctor of Dental Surgery Loyola University Chicago (1977).

2015 Chair/TMD Alliance - American Alliance Temporomandibular Organization. Secretary & Fellow of the International College of Cranio-Mandibular Orthopedics and Former International Regent, Lecturer for ICCMO.

Charter Member of the Academy of Dental Sleep Medicine (originally named Sleep Disorder Dental Society).

Credentialed by Diplomate of Sleep Disorder Dental Society American Board of Dental Sleep Medicine.

Member Academy of Dental Sleep Medicine.

Dr. Konstantin Ronkin

Lecturer Science of Craniofacial Pain/Orofacial Pain/TMD

DMD, PhD, LVIF, MICCMO, FIACA

Founder and President of the Boston Institute of Aesthetic Medicine and three dental clinics in Boston, St. Petersburg and Moscow.

President of the Russian section, President-elect of the American section, and the International College of Cranio-Mandibular Orthopedics (ICCMO).

Member of the editorial board of the professional dental magazine CRANIO.

Dr. Fisnik Kasapi

Lecturer Basic Science and Fundamentals of Implantology

DDS, MsC. In Dentistry, University of St. Cyril and Methodius, Macedonia.

Owner & CEO of Private Dental Clinic "Dentin" for General Dentistry, Oral Surgery and Implantology.

Member of Albanian Dental Association from Macedonia, Albanian Association of Oral and Maxillofacial Surgeons, Executive Board of Dental Chamber of Macedonia and European Committee of European Association of Dental Implantologist BDIZ EDI and President of Albanian Implantology Association from

Macedonia.

Dr. Saurabh Gupta

Master's Lecturer in Implantology Procedures, Diagnosis and Treatment Planning, Sterilisation and Asepsis, Clinical Aspects of Implantology and Bio-Regeneration using Different Techniques and Materials.

BDS Manipal University (India) and Master's Degree in Oral & Maxillofacial Surgery from RGUHS, Bangalore (India).

Trained in multiple allied surgical disciplines including Implantology, Laser and Digital dentistry.

Clinical Director, Digital Dental Design Clinic & DVG's lab (3M Authorized), Bangalore.

Senior consultant at Aarogya Dental and Maxillofacial Center, Delhi.

Education Director/ Board Member of International Academy of Ceramic Implantology.

Dr. Maria Peñarrocha

Lecturer Guided Tissue Regeneration

Bsc. Medicine and Surgery, Bsc. Odontology, MBA Company Management, MsC. Oral Surgery and Implantology, MsC Odontological Sciences, PhD. Odontology, Universidad de Valencia, Spain.

Dentist in department of Stomatology at Universidad de Valencia, Facultad de Medicina y Odontología.

Member of scientific societies (Asociación Valenciana de Cirugía Bucal; Sociedad Nacional de Cirugía Bucal; Sociedad de Medicina Oral) and member of the Editorial Board of Research scientific Journals (Medicina Oral, Patología Oral y CirugíaBucal).

Co-author of 6 books, 77 chapters on research books and 202 Scientific Journal Publications.

Dr. David Peñarrocha

Lecturer Guided Tissue Regeneration

Degree in Dentistry and Master in Oral Surgery and Implant Dentistry, and in Oral Sciences (University of Valencia).

Diploma in Periodontics, University of Santiago de Compostela

International PhD in Dentistry, University of Valencia & University of Pisa

Full Professor of Oral Surgery and Implantology, University of Valencia.

Director of the Expert Diploma in Oral Implantology, University of Valencia.

Associate Editor of the journal "Medicina Oral, Patología Oral y Cirugía Bucal" (indexed in JCR).

**Note: The academic staff for the course is subject to change.*

INFORMATION ABOUT REGISTRATION

REGISTRATION FEES

Master registration fees: 13500 euros.

*Fees for the UJI-specific degree certificate issuing: 135.12 euros

PAYMENT

Seat reservation : 3000 eur

September 2025: 4000 eur

November 2025: 3000 eur

March 2026: 2500 eur

June 2026: 1000 eur

Students who wish to be admitted to the master's degree course will previously need to have obtained a letter of acceptance from the centers where the on-site internship will be carried out. In order to obtain the letters of acceptance, please contact:

Julio Suay. Master director

Email: suay@uji.es

DOCUMENTATION TO BE SUBMITTED

- Letter of acceptance from the master director
- Scanned copy of your degree certificate + translation into English
- Scanned copy of Passport (First and Last Pages) Or your national ID card
- Receipt of payment

METHODS OF PAYMENT

Payment of the registration fee:

1. Payment by Visa or Mastercard credit/debit cards.
2. Direct deposit/bank transfer: Account number: ES64-2100-4236-14-2200003795 (Bank: La Caixa)
