CONFIDENTIALITY: The party receiving the information shall keep all the information received and acquired during the training period at the company strictly confidential. Furthermore, it shall not disclose or publicly announce any information that could infringe the industrial and intellectual property rights of the company or any other commitment that the company may have undertaken with other organisations in this regard. The obligation to maintain confidentiality as regards information will remain in force indefinitely, for as long as the information is considered to be confidential and regardless of the validity of this agreement on work placements. In addition, the student undertakes to help the company implement the contents of this clause. Likewise, the supervisor appointed by the company shall inform the student of the confidentiality obligations affecting his or her department that must be observed. The paragraph above will not be applicable when: a) The receiving party has evidence that it was aware of the information before receiving it; b) The information received is public knowledge.
